Art Unit: 2818

The amendment filed October 7, 2005 has been entered and made of record as paper no. 1005.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 stand rejected under 35 U.S.C. 102(b) as being anticipated by Chang (US-5,761,121).

Chang discloses in figures 21-22D a non-volatile semiconductor memory device comprising a semiconductor substrate (314), a first well (312), a second well (330), a pair of p-type impurity diffused region (320 and 322) at the first well, a floating gate (326) with a tunnel insulating layer (Note lines 58-65, column 15), and an impurity diffused control region (332).

In re claim 2, it is well known to use p-type control region as taught in figure 2 of Chang

Applicant's arguments filed October 7, 2005 have been fully considered but they are not persuasive.

Figures 21-22D and 2 of Chang clearly teach the claimed structure.

Newly submitted claim 11 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Species I (Figures 1-3) does not have the pair of source/drain impurity diffused regions being the impurity diffused control region.

Art Unit: 2818

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 11 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
